

INSPIRED DESIGN FOR OUTDOOR LIVING

# INSPIRED DESIGN FOR OUTDOOR LIVING

Turn your outdoor space into an extension of your home and your personal style. Essex Outdoor Design is your West Michigan partner for large-scale, creative and functional landscape design and outdoor living services.

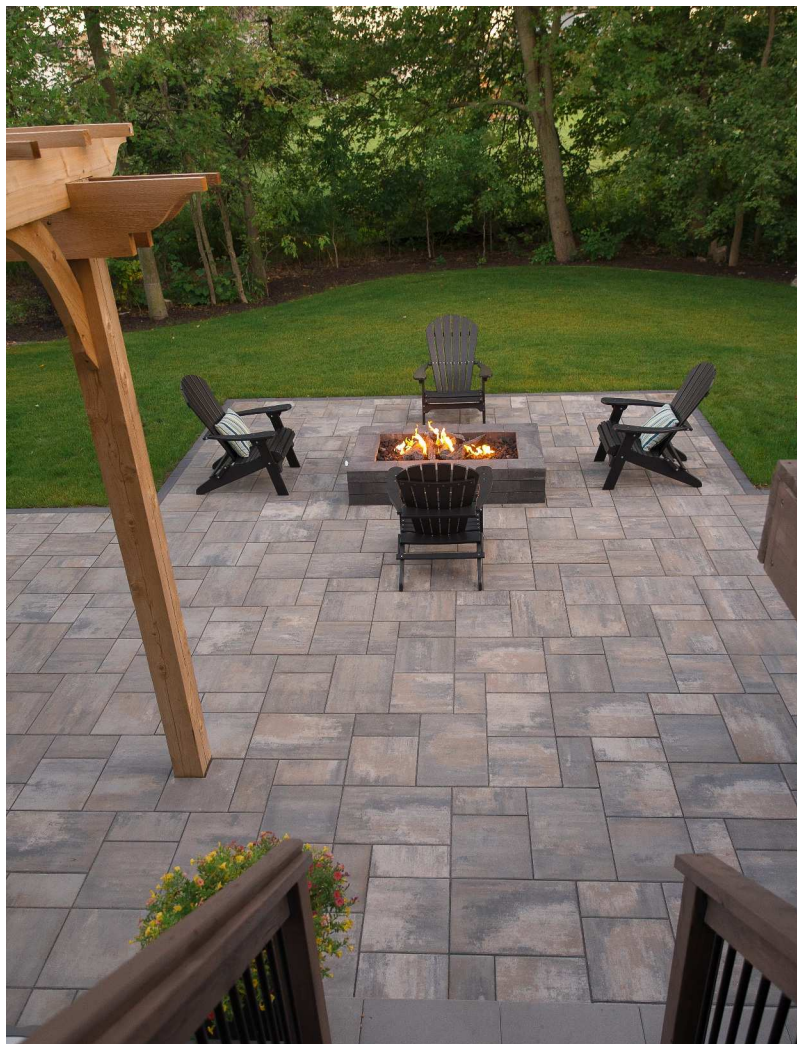

From built-in firepits to outdoor kitchens, paver patios to full-scale master planned landscape design, let us bring your outdoor dreams to life.

Our solid reputation for creativity and quality comes from giving each client the dedicated attention and focus they deserve. Your satisfaction is the main priority from start to finish. From the initial meeting and design concepts to the site survey and construction process, we listen to our clients, work within budget and zoning guidelines and strive to create an outdoor space that your family will enjoy for years to come.
